

NationalLedDirect

National LED Inc.

Ribbon/Reels LED Flexible Ribbon also known as LED Tape for its self-adhesive backing or 'peel n stick' mounting abilities. This product can be used in almost every application imaginable; the most common being for: cabinetry, show cases, displays, cove lighting, accent illumination, under bars, stairs and wine coolers. With an operating voltage of 12VDC, the LED Flexible Ribbon can be powered using a step-down AC Adapter or LED Driver, Batteries and Solar. For exterior applications, please see our Waterproof models.
